

# CATALOGS DONE RIGHT

## Catalogs? In July?

Yep. Get your catalog started now and be ready to go with a book you can be proud of at a price that lets you enjoy that pride. All too often catalog production is held until the last minute. Whether it is a cost issue or pricing or finalizing the product line, there is always a reason to wait. Of course, that waiting just runs the cost up.

By getting started now, you can lock in the costs and still have the flexibility to wait to finalize it. I offer full service including design, photography, copy writing, layout and print management.

Great catalogs and covers, including photography, can be had for a lot less than you think. Every project is estimated individually so your mileage may vary. Give me a call or an e-mail today so you can plan this cost early and get the ball rolling on the best damn catalog. Period.
